AMENDMENTS TO THE CLAIMS:

The listing of claims will replace all prior versions, and listings of claims in the application:

LISTING OF THE CLAIMS

- 1. (Canceled)
- 2. (Previously Presented) A method for creating a temporary service plan for a subscriber of a wireless service provider when the subscriber currently has a normal service plan with the wireless service provider, the method including the steps of:

receiving a request to create the temporary service plan from a user; retrieving the subscriber's normal service plan from a subscriber database; reporting the normal service plan to the user;

providing a change selection menu to the user in response to the request; creating the temporary service plan in conjunction with one or more user selections associated with the change selection menu;

storing the temporary service plan in the subscriber database; and receiving a request for service plan status from the user.

- 3. (Previously Presented) The method as set forth in claim 2 wherein the user transmits the received request to create the temporary service plan using a mobile station associated with the subscriber's normal service plan.
- 4. (Previously Presented) The method as set forth in claim 2, further including: verifying the user has authority associated with the subscriber to create the temporary service plan.
- 5. (Previously Presented) The method as set forth in claim 2 wherein the request from the user is via a call to one of a switching center, a peripheral device and an auxiliary component associated with the wireless service provider from a telephone device.

- 6. (Previously Presented) The method as set forth in claim 5 wherein the change selection menu provided to the user includes an automated interactive audio portion.
- 7. (Original) The method as set forth in claim 5 wherein the change selection menu provided to the user includes an interactive graphical display portion.
- 8. (Previously Presented) The method as set forth in claim 2 wherein the change selection menu provided to the user includes a portion for selection between a nationwide plan and a local plan.
- 9. (Previously Presented) The method as set forth in claim 2 wherein the change selection menu provided to the user includes a portion for selection of a quantity of airtime associated with a predetermined period of calendar time.
- 10. (Previously Presented) The method as set forth in claim 2 wherein the change selection menu provided to the user includes a portion for selection of a date for expiration of the temporary service plan.
- 11. (Previously Presented) A method for modifying a service plan for a subscriber of a wireless service provider, the method including the steps of:
- a) receiving a call from a user requesting status of the service plan, wherein the call is initiated by the user via a telephone device;
 - b) retrieving the service plan from a subscriber database;
 - c) reporting the service plan to the user in response to the status request;
- d) receiving a request to modify the service plan from the user via the telephone device;
- e) verifying the user has authority associated with the subscriber to modify the service plan;
- f) providing a change selection menu to the user in response to the modification request;
- g) modifying the service plan or creating a temporary service plan in conjunction with one or more user selections associated with the change selection menu; and
 - h) storing the modified service plan in the subscriber database;

wherein receiving the call, retrieving the service plan, reporting the service plan, receiving a request to modify the service plan, verifying the user has authority, providing a change selection menu, modifying the service plan or creating the temporary service plan and storing the modified service plan are each performed by a device associated with the wireless service provider.

- 12. (Original) The method as set forth in claim 11 wherein the telephone device is a mobile station associated with the subscriber's service plan.
- 13. (Previously Presented) The method as set forth in claim 11 wherein the change selection menu provided to the user includes an automated interactive audio portion.
- 14. (Original) The method as set forth in claim 11 wherein the change selection menu provided to the user includes an interactive graphical display portion.
- 15. (Original) The method as set forth in claim 11 wherein the change selection menu provided to the user includes a portion for selection between a nationwide plan and a local plan.
- 16. (Original) The method as set forth in claim 11 wherein the change selection menu provided to the user includes a portion for selection of a quantity of airtime associated with a predetermined period of calendar time.
- 17. (Original) The method as set forth in claim 11 wherein the change selection menu provided to the user includes a portion for selection of a date for extension and expiration of the service plan.
- 18. (Canceled)
- 19. (Previously Presented) A method for processing a call from a mobile station in a wireless network when the call is associated with a subscriber having a normal service plan with a wireless service provider associated with the wireless network, the method including the steps of:

- a) receiving the call from the mobile station;
- b) determining if the subscriber has a temporary service plan that is in effect with the wireless service provider;
- c) if a temporary service plan is in effect, continuing to process the call and determining charges for the call according to the temporary service plan;
- d) if a temporary service plan is not in effect, determining if the subscriber had a temporary service plan that recently expired; and
- e) if a temporary service plan recently expired, sending a message to the mobile station informing the user that a temporary service plan has recently expired, continuing to process the call, and determining charges for the call according to the normal service plan.
- 20. (Currently Amended) A—<u>The</u> method <u>as set forth in claim 19, further including</u> for processing a call from a mobile station in a wireless network when the call is associated with a subscriber having a normal service plan with a wireless service provider associated with the wireless network, the method including the steps of:
 - a) receiving the call from the mobile station;
- b) determining if the subscriber has a temporary service plan that is in effect with the wireless service provider;
- c) if a temporary service plan is in effect, continuing to process the call and determining charges for the call according to the temporary service plan; and
- d)f) if a temporary service plan has not recently expired, continuing to process the call and determining charges for the call according to the normal service plan.
- 21. (Previously Presented) A method for providing service plan flexibility to a wireless service subscriber the method comprising:

establishing a normal service plan having a normal plan start date and a normal plan end date in association with a directory number;

establishing a temporary service plan in association with the same directory number;

associating a temporary plan start time or date with the temporary service plan; associating a temporary plan expiration time and/or date with the temporary service plan, wherein the temporary plan start time or date and expiration time or date are between the normal plan start and end dates;

billing calls according to the temporary service plan if a current time is within a range associated with the temporary plan start time and/or date and the temporary plan expiration time and/or date; and

billing calls according to the normal plan if the current time is outside the range associated with the temporary plan start time and/or date and the temporary plan expiration time and/or date.
